July 2018, 2019, 2021

- Improved substandard housing with a church group for a week, including painting, installing drywall and soffit

PROJECTS

GWU Department of Geography and Environment

George Washington University

Researcher — Green Area Ratio

Spring 2025

- Worked with Dr. Melissa Keeley of GWU and Andrea Krug of DOEE to study DC's Green Area Ratio Law over the course of two academic papers, one to be published this year in MDPI's *Sustainability*
- Reached out to 10+ stakeholders, conducting interviews to understand cost-benefit analysis of implementing mandated green landscape elements in varied developments across the city, with data compiled in Excel

Researcher — Bioswale Management Project

Spring 2025

- Collaborated with other students as part of a long-term research project on DC's bioswales, collecting physical data such as stormwater infrastructure qualities and vegetation, conducting human interviews to understand perceptions across DC
- Analyzed class-wide datasets to contribute to a final report on urban sustainability and blue-green infrastructure performance
